

Am I Getting a Paycheck Plus Bonus in 2017?

You can check on your bonus or get blank forms at:

<http://paycheckplus.mdrc.org>

You will need to enter your Paycheck Plus ID code: _____

Getting a Paycheck Plus bonus usually takes about 3 months. However, it can take longer than that in some cases (for example: complicated tax situations, closed bank accounts, child support arrears, typos or other errors in the application, or other issues).

Step 1: Make sure your bonus application is complete before you leave today!

1. Give Food Bank your current **tax filing information** (your 1040 and other tax forms).
2. Food Bank will also need **proof that the IRS has accepted** your tax forms.
3. Fill out instructions for **how you want Paycheck Plus to pay you**.
4. **If your phone number, address, or email address changed** in the past year, please email paycheckplus@mdrc.org to update it. We may need to contact you if we have any questions about your application.

Step 2: Paycheck Plus will calculate whether you earned a bonus for this year.

- The review takes about 3 months. We will use information from the tax forms you are filing this year.
- The staff will tell you today if you seem to be eligible for a bonus. However, staff cannot guarantee a bonus or tell you the amount until after Paycheck Plus reviews your complete application. There are some examples of potential bonus amounts on the back of this paper.
- If you owe any unpaid child support, as required by law, the bonus that you may earn in Paycheck Plus will be applied to reduce or pay off this child support debt. You have the right to appeal the amount of the deduction with the Office of Child Support Enforcement. If you have any questions, please ask the tax staff today.

Step 3: Once the review is complete you can look up your bonus at <http://paycheckplus.mdrc.org>.

- You will need to know the ID code listed at the top of this sheet. If you lose your code, call 212-340-4480 for a reminder.
- This web site will tell you whether you have been approved to get a 2017 bonus, the amount of your bonus, and the estimated payment date.

Thank you for being in Paycheck Plus!

What Amount of Paycheck Plus Bonus Might I Receive in 2017?

The Paycheck Plus bonus is designed to help workers by giving them additional income based on their earnings from work, or their profit from self-employment. Your 2016 earnings and other tax information help Paycheck Plus to calculate how much your bonus may be in 2017. This will take about 3 months, or it can take longer.

How much of a bonus did you earn?

Once Paycheck Plus processes your application, you can look up the amount of your bonus at <http://paycheckplus.mdrc.org>.

We cannot guarantee that you have earned a bonus, or the amount, until after we review your 2016 tax information and the rest of your 2017 application. The table below shows examples of bonus estimates. **Yours could be different.**

Your Adjusted Gross Income (“AGI” – from your IRS 1040) must be below \$30,000 to get a Paycheck Plus bonus.

- If your AGI is below \$18,000: we calculate your bonus based on your earnings and/or profit (profit = net income from self-employment).
- If your AGI is \$18,000 or higher: we calculate your bonus based on your AGI.
